

Hillside Cemetery Committee Meeting

August 9, 2010

Regarding Gibson request (unofficial):

Mrs. Esther Gibson met with the committee to request allowing her to use a rock in place of a monument that has great meaning to her on her husband's grave. The rock is one which her husband would walk their three grandchildren up the driveway to in order to wait for the bus every morning. Finding it difficult to walk that distance, he would then stop to rest on the rock until the bus came.

Photographs were submitted along with other comments. After discussion by the committee the matter was given to the Village board for final determination. The Cemetery committee recommendation is to not allow this request.

Official minutes were not taken, this is a combination of notes received in part.
