Central Square, New York 13036

Planning Board Workshop

October 20, 2011

The Village of Central Square Planning Board met at Village Hall on October 20, 2011. Members present were Stephen Williams, Burt Alm and JudyAnn Trombley, Secretary. Members absent were Barb Davis and Maryellen Comisso. Also in attendance were CEO Dale Hodge, Valerie J. Grant, John Donohue and Ann Woodward.

The Following Notes Are From This Workshop:

Due to absence of Board Members, a quorum could not be met. Chairperson Williams declared a workshop at which no business will be conducted.

John Donohue, P.E., Senior Vice President of Barton & Loguidice, presented (on Mayor's request) several elements of three possible alternative solutions to the traffic issues of the village center as in the January 2010 Traffic Study Final Report. Prior to tonight's meeting, there was an understanding that a DOT improvement project was due for implementation by 2015 (as of 2010) for Central Square at 1.4 million dollars. Mr. Donohue brought more recent information that reflected a change in date to 2021. He spoke of the three alternatives and cost estimates from 2010 Traffic Study as still viable options. He also mentioned state-wide improvement plan funding and other funding options available to make a lower cost to the Village.

The majority of Comprehensive Plan discussion at this workshop was on the traffic issues affecting travel in the Village, several alternative solutions and incorporating that information into the revision of Goal #1 and its respective strategies in the Comprehensive Plan.

As a reminder, the next meeting is scheduled for 7:00pm on the third Thursday, November 17, 2011.

Respectfully Submitted,

JudyAnn Trombley
Planning Board Secretary
